

CALL FOR PAPERS

The Second International Conference on Uncertainty Theory

August 6-11, 2011, Lhasa, Tibet, China

<http://orsc.edu.cn/icut>

The Second International Conference on Uncertainty Theory (ICUT2011), one of annual conferences for the International consortium for Uncertainty Theory (ICUT), will be held in Lhasa, the spiritual and political capital of Tibet, China. Lhasa means in Tibetan "the land of gods". There are numerous scenic spots and historical attractions, among which Potala Palace, Jokhang Temple, Namtso Lake, and Grand Canyon of Yarlung Zangbo River are the most famous. The conference aims to bring together researchers all over the world for exchanging new ideas and presenting new advances in the theoretical and practical areas of uncertainty theory. Research discussions among participants will also be held during the tour.

The program committee and organizing committee of ICUT2011 cordially invite you to submit your paper to this conference. All papers related to theoretical developments and applications of uncertainty theory are welcome. Relevant topics include, but not limited to:

Uncertain Calculus
Uncertain Control
Uncertain Differential Equation
Uncertain Inference
Uncertain Logic
Uncertain Process
Uncertain Programming
Uncertain Statistics
Uncertainty Theory
Applications in Artificial Intelligence
Applications in Control
Application in Data Mining
Applications in Finance
Applications in Industrial Engineering
Applications in Information Science
Applications in Machine Learning
Applications in Management Science
Applications in Operations Research
Applications in Risk Analysis
Applications in Robotics

All abstracts and final papers will be published in the proceedings before the conference. Two best paper awards for students and two best paper awards for faculty members will be presented during the conference.
